Downloading
Please refer to the following link on the Exclaimer website:

http://www.exclaimer.com/downloads/auto-responder/default.aspx

Installing
Download the 'Auto Responder 2.0.2' installation file 'setup.exe' and run on the Microsoft Exchange Hub Transport Server for Exchange 2007/2010 or Mailbox Server for Exchange 2013. An MSI is available from support by contacting support@exclaimer.com.

Uninstalling
Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Auto Responder' or via 'Add/Remove Programs' in Windows Server 2003 or 'Programs and Features' in Windows Server 2008 & 2012.

The configuration files are located in the following folder and will not be removed as part of the uninstall process:

Operating System	File Location
Windows Server 2003 R2 x64	\Documents and Settings\All Users\Application Data\Exclaimer Ltd\Auto Responder
Windows Server 2008 x64 Windows Server 2008 R2 x64 Windows Server 2012 Windows Server 2012 R2 Windows Small Business Server 2008 Windows Small Business Server 2011	\ProgramData\Exclaimer Ltd\Auto Responder

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps
1. Open the Exclaimer Console.
2. Select the 'Exclaimer' node.
3. Open the 'Action' menu.
4. Select 'Export Configuration…'
5. Select a location and filename for the export.
6. Press Save.

This will export all your settings including all your templates and licensing data.

Upgrading
Upgrading be achieved via the 'setup.exe' which will perform an in-place upgrade.

Fixed Issues
- Image path not correctly set to the UNC of an image when using Remote Deployment.
- If a {Conditional Field} is inside a {List of Fields} its values are lost when going back to the editor.
- When pasting an image from a template from a previous version, the SRC path in Properties is incorrect.
- {Rotating Banner Ad} "Filter" property is respected in Preview, but not in the Policy Tester or processed messages.
- Unable to install Exclaimer Auto Responder when AVG anti-virus is installed.
- Exception thrown and message not delivered when a member of a distribution group contains an invalid SMTP address.
- Images with read only attribute cause high CPU usage for the 'Exclaimer Auto Responder Configuration Service'.
- Smart Table Text Properties not taking effect.
- Exception thrown when attempting to set the Webpage field to a static URL in a contact block.

- Exception thrown when saving a template that has "Other AD fields" in a "Conditional Field".
- Exception thrown when opening an upgraded template that was originally created in Auto Responder version 1.0 where the template contains Sender or Recipient AD fields.
- Unable to close error dialog when previewing plain text templates when a file referenced in the template cannot be found.
- You cannot drag and drop template fields onto an HTML template from the fields menu on the left of the template editor.
- Policy tester plain text message view does not display all of the content until the dialog is resized or maximized.
- Content is not displayed correctly when clicking in the Plain Text Policy tester message view.
