Downloading

Please refer to the following link on the Exclaimer website:

<http://www.exclaimer.com/downloads/auto-responder/default.aspx>

Installing

Download the 'Auto Responder 2.1.0' installation file 'setup.exe' and run on the Microsoft Exchange Hub Transport Server for Exchange 2007/2010 or Mailbox Server for Exchange 2013. An MSI is available from support by contacting support@exclaimer.com.

Uninstalling

Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Auto Responder' or via 'Add/Remove Programs' in Windows Server 2003 or 'Programs and Features' in Windows Server 2008 & 2012.

The configuration files are located in the following folder and will not be removed as part of the uninstall process:

Operating System	File Location
Windows Server 2003 R2 x64	\Documents and Settings\All Users\Application Data\Exclaimer Ltd\Auto Responder
Windows Server 2008 x64 Windows Server 2008 R2 x64 Windows Server 2012 Windows Server 2012 R2 Windows Small Business Server 2008 Windows Small Business Server 2011	\ProgramData\Exclaimer Ltd\Auto Responder

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps

1. Open the Exclaimer Console.
2. Select the 'Exclaimer' node.
3. Open the 'Action' menu.
4. Select 'Export Configuration...'
5. Select a location and filename for the export.
6. Press Save.

This will export all your settings including all your templates and licensing data.

Upgrading

Upgrading can be achieved via the 'setup.exe' which will perform an in-place upgrade.

Fixed Issues

- Excessive memory usage of EdgeTransport.
- Group enumeration not correctly detecting members of a group when the group and members are in different domains.
- Console validation was preventing save operation when the 'Auto response is from' field had a manually entered display name.
- Policy was not applied when the 'Auto response is from' field contained a display name from a {field} and a manually entered email address.
- Recipient fields were not displayed when inserted into the 'Replace subject' field.
- Unicode characters displaying as questions marks when pasted from Notepad.
- An exception was thrown when importing a template that had a {Custom Image} containing a {Field}.
