Downloading

Please refer to the following link on the Exclaimer website:

<https://www.exclaimer.co.uk/auto-responder/download>.

Installing

Download the 'Auto Responder 2.1.3' installation file 'setup.exe' and run on the Microsoft Exchange Hub Transport Server for Exchange 2010 or Mailbox Server for Exchange 2013 and above. An MSI is available from support by contacting support@exclaimer.com.

Uninstalling

Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Auto Responder' or via 'Programs and Features' in Windows Server in your operating system.

The configuration files are located in the following folder: **\ProgramData\Exclaimer Ltd\Auto Responder** and will not be removed as part of the uninstall process.

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps

1. Open the Exclaimer Console.
2. Select the 'Exclaimer' node.
3. Open the 'Action' menu.
4. Select 'Export Configuration...'
5. Select a location and filename for the export.
6. Press Save.

This will export all your settings including all your templates and licensing data.

Upgrading

Upgrading can be achieved via the 'setup.exe' which will perform an in-place upgrade.

Fixed Issues

- Memory spike when running Policy Tester
- When using List of Fields in a specific scenario the optional separator is incorrectly displayed
- An error dialog is shown when cancelling a selected "Other AD Field" in a conditional field
- Copy & Paste a List Of Fields containing a Field on Plain Text tab shows Field GUID
- No scroll available when adding more than 10 items to the header contains condition option

- Compatibility with error dialogs in Exchange 2019 and 2016
- Support for distribution lists with over 1000 users
- Remote Deployment feature compatibility when setting ManualConfig registry value to 1 for Sent Items Update service account
