Windows Small Business Server 2011. Windows Vista x64 (including all service pack levels). Windows 7 x64 (including all service pack levels). Windows 8 x64. Windows 8.1 x64. Windows Server 2012. Windows Server 2012 R2.	
Exchange Server	Microsoft Exchange Server 2007 SP1 Rollup 5 and above. Microsoft Exchange Server 2010 RTM and above. Microsoft Exchange Server 2013 RTM and above.	
Microsoft .Net Framework	Microsoft .Net Framework 4.0.	

The following software is required for Exclaimer Mail Archiver. These components will be installed via the Setup program if not present on the system at the time of installation.

Software (Prerequisites)	Minimum Requirements
Microsoft IIS	Internet Information Services 7 and above.

Note: Desktop operating systems (Windows Vista, Windows 7 and Windows 8) have a maximum of 10 concurrent connections for IIS. Exclaimer recommends using these operating systems for evaluation purposes only.

System Requirements: Batch Importer (Exchange Mailboxes)

The Batch Importer requires a MAPI provider in order to import Exchange Mailboxes. Please install the MAPI provider for your version of Exchange from the table below.

Note: If you have multiple versions of Microsoft Exchange in your organization use the lowest version currently deployed. Once you have installed an appropriate MAPI client you will need to restart the computer before you can use Batch Importer.

MAPI Provider	Exchange 2007		Exchange 2010		Exchange 2013
	Without 2003 Support	With 2003 Support	Without 2003 Support	With 2003 Support	
Outlook 2003		x		x	
Outlook 2007 x86 & x64	x	x	x	x	
Outlook 2010 x86 & x64	x	x	x	x	
Outlook 2013 x86 & x64	x	x	x	x	
MAPI CDO					x*

* Minimum May 2013 release of [MAPI CDO 1.2.1 version 6.5.8320](#) and above.

The columns "Without 2003 support" and "With 2003 support" are related to the answer given when Microsoft Exchange was first installed (or upgraded from Exchange 2003 or lower) in your organization. One of the questions asked during Setup is "Do you have any computers running Outlook 2003 and earlier or Entourage in your organization?" Your answer to this question changes the MAPI providers that can be supported in your organization. If you are unsure of your answer to this question, either:

Check by using Microsoft Outlook:

On any provider computer in your organization open Microsoft Outlook.

Click the **Folder** icon in the bottom left of the window. (You may have to select "More..." or "...", depending on the version of Microsoft Outlook you are using).

The list of folders updates. If the list includes "Public Folders" then you have 2003 support.

Check by using the Exchange Management Shell on your Microsoft Exchange server

Click **Start, All Programs, Microsoft Exchange Server, Exchange Management Shell**. (For Windows Server 2012 and 2012 R2 point your mouse to the upper-right corner of the screen, moving the mouse pointer down, and then clicking "Search" from the charm menu. Type "Exchange Management Shell" in the search and press return. Click "Exchange Management Shell" from the search results.)

The Exchange Management Shell loads.

Enter the command below and press **ENTER**:

```
@(Get-PublicFolderDatabase).count
```

If you are returned a number greater than zero, you have 2003 support. Close the Exchange Management Shell.

Downloading

Please refer to the following link on the Exclaimer website:

<http://www.exclaimer.com/mail-archiver/download>

Installing

Download the 'Mail Archiver' installation file 'setup.exe' and run on one of the supported operating systems listed under the Software heading in the System Requirements section.

An MSI is available from support by contacting support@exclaimer.com.

Uninstalling

Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Mail Archiver' or via 'Programs and Features' in your operating system.

The configuration files are located in "\\ProgramData\\Exclaimer Ltd\\Mail Archiver" and will not be removed as part of the uninstall process.

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps

1. Open the Exclaimer Console.
2. Select the 'Exclaimer' node.
3. Open the 'Action' menu.
4. Select 'Export Configuration...'
5. Select a location and filename for the export.
6. Press Save.

Note: This will export all your settings and licensing data only. Your archived data will not be exported.

Upgrading

Upgrading can be achieved by following the steps above to uninstall the current version and then install the new version. Journal rules will not be disabled; messages will still be delivered to the Journal Mailbox. Journal Mailbox Importers will continue to archive messages once the installation of the new version has been completed.

Fixed Issues

- Outlook Add-in certificate had expired.

New Features

- Outlook 2016 support.
