Outlook Web Access (OWA) \ Outlook Web Apps	Outlook Web Access 2003. Outlook Web Access 2007. Outlook Web Apps 2010. Outlook Web Apps 2013. Office 365.

Downloading

Please refer to the following link on the Exclaimer website:
http://www.exclaimer.com/signature-manager-outlook-edition/download

Installing

Download and run the 'Signature Manager Outlook Edition 3.0.2' installation file 'setup.exe'. An MSI is available from support by contacting support@exclaimer.com.

Uninstalling

Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Signature Manager Outlook Edition 3.0' or via 'Add/Remove Programs' in Windows 2003 and Windows XP or 'Programs and Features' in Windows 2008, Windows 2012, Windows Vista, Windows 7 and Windows 8.

The configuration files are located in the following folder and will not be removed as part of the uninstall process:

Operating System	File Location
Windows Server 2003 x86 and x64 Windows Server 2003 R2 x86 and x64	\Documents and Settings\All Users\Application Data\Exclaimer Ltd\Signature Manager

Windows Small Business Server 2003 Windows XP x86 and x64	
Windows Server 2008 x86 and x64 Windows Server 2008 R2 Windows Server 2012 Windows Server 2012 R2 Windows Small Business Server 2008 Windows Small Business Server 2011 Windows Vista x86 and x64 Windows 7 x86 and x64 Windows 8 x86 and x64	\ProgramData\Exclaimer Ltd\Signature Manager

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps
1. Open the Exclaimer Console
2. Select the 'Exclaimer' node
3. Open the 'Action' menu
4. Select 'Export Configuration…'
5. Select a location and filename for the export
6. Press Save

This will export all your settings including all your templates and licensing data.

Upgrading
Upgrading can be achieved via the 'setup.exe' which will perform an in-place upgrade.

Fixed Issues
- Excessive memory usage in the Exclaimer Outlook Settings service.
- Group enumeration not correctly detecting members of a group when the group and members are in different domains.
- Signatures not generated when a non-signature ZIP file was present in the deployment share.
- In certain scenarios the Policy Tester would contain incorrect warnings that an OWA signature template contains local images when using internet images.
- Local copy of images were incorrectly used when a template with internet images was imported.
- When changing 'Deploy signature to' from 'Outlook' to 'OWA' the image options were not updated correctly.
- Policy Tester was unable to determine membership of the Domain Users group.
- Unicode characters were displaying as questions marks when pasted from Notepad.
- An exception was thrown when importing a template that had a {Custom Image} containing a {Field}.
- ExSync did not disregard backslashes used as encoding characters.

- ExSync was not able to create a signature file when the user's display name contained speech marks.
- All template files were saved when saving changes in the console.

Changes and Enhancements
- Improved compatibility with Anti-virus applications.
- Save operation now has a retry strategy to cope with locked files.

Known Issues
- Unable to determine Share and Security permissions on a DFS namespace share running in Windows Server 2008 mode.
- Security permissions are not applied correctly if the Deployment share is on a DFS namespace on Server 2008 but running in 2000 mode.
